

# The My2N Management Platform

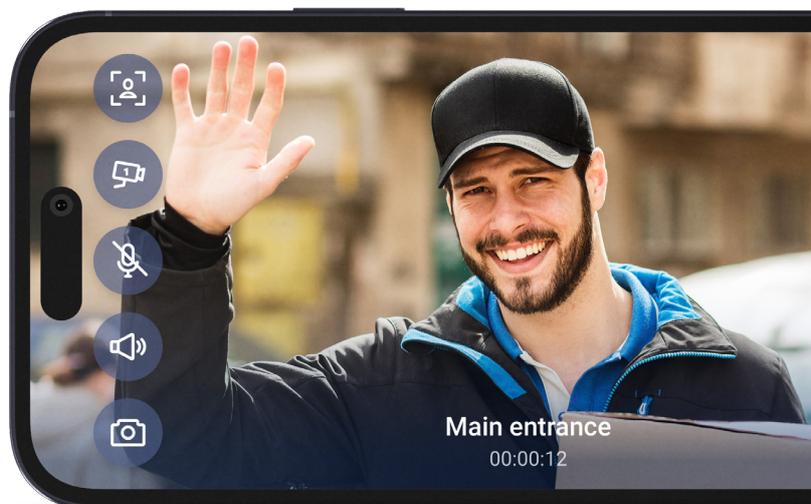

Subscription for cloud calling service

## Device charges

Cloud calling between 2N products is free. Cloud calling from intercoms to mobile phones, tablets, third-party answering units and the 2N® IP Handset and the 2N® IP Phone D7A is subject to charges.

## Project type

Make sure you choose the correct project type. The payment model for cloud calling is set up automatically. Please note that the project type cannot be changed later.

### Apartment building

#### Payment per apartment

Includes up to four devices per apartment.

### Single-family house

#### Payment per device

Includes any device subject to charges.

### Other (e.g. offices)

#### Payment per device

Includes any device subject to charges.

If you don't select a project type, it will be set as 'Unknown' with a per-device payment plan. You can have up to four mobile phones in one housing unit. There is no minimum order volume.

## Annual subscription price

per apartment: **EUR 36** (MSRP)

per device: **EUR 24** (MSRP)

## Sales channels

### Distribution channel

The service provider (integrator, property manager, etc.) purchases a subscription from a 2N distributor. The service provider can charge a margin. Only annual subscriptions are possible. The order numbers are:

- 9137957** My2N Annual Device Subscription
- 9137958** My2N Annual Apartment Subscription

### Direct channel

The user pays for the subscription by credit card directly in the My2N Management Platform. There is no room for margin for the service provider (integrator, property manager, etc.). Monthly and annual payment is possible.
